MEDITECH REGULATORY SUPPORT SERVICES

Improve Alignment and Efficiency

Tegria lays the groundwork for healthcare compliance with strategic planning, management, and execution.

- ✔ Regulatory Programs Management
- ✔ Ongoing Participation Assistance
- ✔ Application Build + Support
- ✔ Compliance Monitoring + Alerts
- ✔ Comprehensive Attestation Preparation
- ✔ Audit Planning + Reporting

Turn Compliance Challenges Into Victories With Expert Regulatory Support

Elevate Alignment and Oversight
Tegria's team has deep, up-to-date knowledge of regulation requirements and serves as a central point for compliance by monitoring and reporting on business operation and departments.

Enhance Quality Assurance
We provide comprehensive compliance monitoring with a continuous watch on objectives and quality data, along with ongoing alerts of any changes proposed by CMS or required in MEDITECH.

Reduce Burden and Frustration
We support compliance staff with registrations, hardships, and exclusions, when necessary, while overseeing application status and communication with compliance regulators.

Streamline Attestation Processes
Our team simplifies attestation by developing yearly checklists, generating the latest SQL reports, preparing workbooks, and offering recommendations for securing data year by year.

Healthcare Data and Technical Expertise
Our experts perform data capture modifications, value set mapping, workflow modification assistance, DR configuration/table updates, testing support, and data submission support.

Improve Audit Preparation and Results
We take the stress out of audit preparation, and free time for other initiatives, with comprehensive support for internal and external audits, along with report recommendations for audit trails.

MEDITECH REGULATORY SUPPORT SERVICES

Our Proactive Approach to Partnership

Our commitment begins with embracing your challenges, collecting data, and conducting thorough analyses to identify opportunities. We then craft tailored recommendations to guide you through implementation, optimization, and future growth.

You're Unique. So Are We.

Healthcare-Specific Expertise
Our consultants average over 20 years of healthcare IT experience, bringing unparalleled industry knowledge to every project.

Vendor-Rich Perspective
Our industry-leading experience spans a comprehensive range of systems to find your best fit.

End-to-End Solutions
Our end-to-end services combine technical acumen, project management, and application expertise.

> "We deeply appreciate **your expertise and support** in guiding us through the attestation process. Despite the challenges, we successfully met all the requirements, thanks to your diligent efforts. **Tegria has played an integral role in this achievement, and we are incredibly grateful for your partnership**. A simple 'thank you' doesn't capture our full appreciation for all you've done."
